POINSETTIA STAR

By David Hawkins, 2004

1. Fold in half and unfold

2. Sides to the middle

3. Other sides to the middle

4. To form this...

5. Flange from one goes into the pocket of the other

6. Join 16 units to make a star

This is a very flexible design. Try using different sizes and colors of paper. Try putting smaller units over larger ones to make a star within a star.
